

WP SYNC REST

Home Page :

1. Enter the Site Name and Key of the website

2. Click on Enter site to add a site

The screenshot shows the 'WP Sync Data' settings page in a WordPress admin interface. On the left, a sidebar lists various menu items like Dashboard, Posts, Media, and WP Sync Rest. The 'WP Sync Rest' item is currently selected. The main area has two input fields: 'API Key' and 'URLs', both with placeholder text 'Enter Api Key...' and 'Enter urls'. Below these is a large 'ENTER SITE' button. Underneath the button, there's a section titled 'Selected Sites' containing a single entry: 'http://localhost/wordpress' followed by a long alphanumeric string 'a320ee451e09f7f5ee9ac4f052773358'. To the right of this entry is a small 'X' icon. Below the entry is a button labeled 'Show my key'. At the bottom of the page, a message says 'Thank you for creating with WordPress.' and 'Version 6.9'.

3. Go to Sync Page to do synchronization

The screenshot shows the 'WP Sync Data' settings page again. The sidebar and overall layout are identical to the previous screenshot. In the main area, there are four dropdown menus: 'All Posts', 'All Categories', 'All Taxonomies', and 'Pagination Size', each with a downward arrow indicating they are dropdowns. Below these is a 'APPLY' button. Underneath the 'APPLY' button is a section titled 'Available Sites' containing the same entry as before: 'http://localhost/wordpress' followed by the same long alphanumeric string. To the right of this entry is a small 'X' icon. Below the entry is a large 'SYNC' button. At the bottom of the page, a message says 'Thank you for creating with WordPress.' and 'Version 6.9'.

4. Let's create a two page with the 'cat' category on wodspress2 site

The screenshot shows the WordPress 2 admin interface for creating a new page. The title is "Wordpress 2 : Page 1". The status is set to "Draft". The slug is "wordpress-2-page-1". The author is "DB01". The discussion status is "Closed". The parent page is "None". In the "Cats" section, there is a field for adding a new category with the value "new_cat". A note says "Separate with commas or the Enter key." There is also a "Dog" section with a field for adding a new dog, currently empty.

The screenshot shows the WordPress 2 admin interface for editing an existing page. The title is "Wordpress 2 : Page 2". The status is set to "Published". The publish date is "December 5, 2025 10:49 am UTC+0". The slug is "wordpress-2-page-2". The author is "DB01". The discussion status is "Closed". The parent page is "None". There is a red button labeled "Move to trash". In the "Cats" section, there is a field for adding a new category with the value "new_cat". A note says "Separate with commas or the Enter key." There is also a "Dog" section with a field for adding a new dog, currently empty.

The screenshot shows the WordPress admin interface with the URL `localhost/wordpress2/wp-admin/edit.php?post_type=page`. The left sidebar is dark-themed and includes a 'WP Sync Rest' section under 'Pages'. The main area is titled 'Pages' with a sub-tab 'Add Page'. It displays two published pages: 'WordPress 2 : Page 1' and 'WordPress 2 : Page 2'. Both pages were created by user 'DB01' on December 5, 2025, at 10:48 am and 10:49 am respectively. The table has columns for 'Title', 'Author', 'Published', and 'Date'. There are 'Bulk actions' and 'Apply' buttons at the top and bottom of the list.

5. Choose the filters from the Settings

The screenshot shows the 'WP Sync Data' settings page with the URL `localhost/wordpress2/wp-admin/admin.php?page=plugin_sync`. The left sidebar is dark-themed and includes a 'WP Sync Rest' section under 'Pages'. The main area is titled 'WP Sync Data' and 'Settings'. It features four dropdown filters: 'Page' (set to 'All'), 'All Categories' (set to 'cat'), 'cat' (set to 'cat'), and 'Pagination Size' (empty). Below these is an 'APPLY' button. A section titled 'Available Sites' contains a single site entry: 'http://localhost/wordpress' with the ID 'a320ee451e09f7f5ee9ac4f052773358'. A large 'SYNC' button is centered below the site list. The footer includes the message 'Thank you for creating with WordPress.' and 'Version 6.9'.

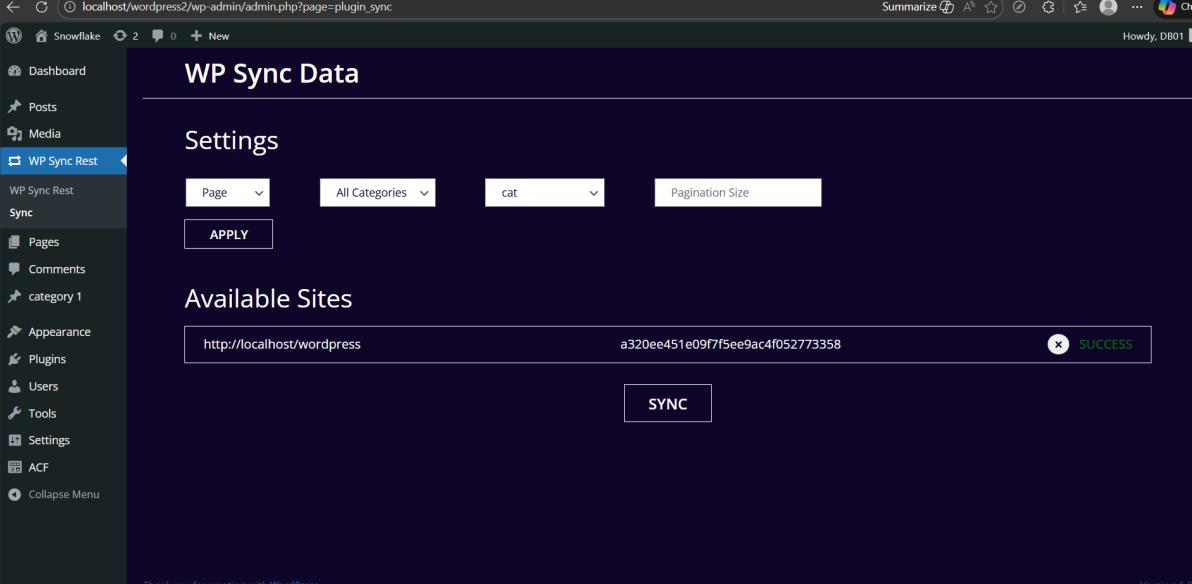

6. Click on apply

The screenshot shows the 'WP Sync Data' settings page in a WordPress admin interface. On the left, a sidebar lists various menu items like Dashboard, Posts, Media, and WP Sync Rest Sync. The 'WP Sync Rest Sync' item is currently selected. The main area is titled 'WP Sync Data' and contains a 'Settings' section with dropdown menus for 'Page', 'All Categories', 'cat', and 'Pagination Size', along with an 'APPLY' button. Below this is a 'Available Sites' section. A site entry for 'http://localhost/wordpress' is listed with a unique identifier 'a320ee451e09f7f5ee9ac4f052773358'. To the right of the site entry is a 'SYNC' button. At the bottom of the page, there's a message 'Thank you for creating with WordPress.' and a note 'Version 6.9'.

7. Now to syncronize click on the SYNC button

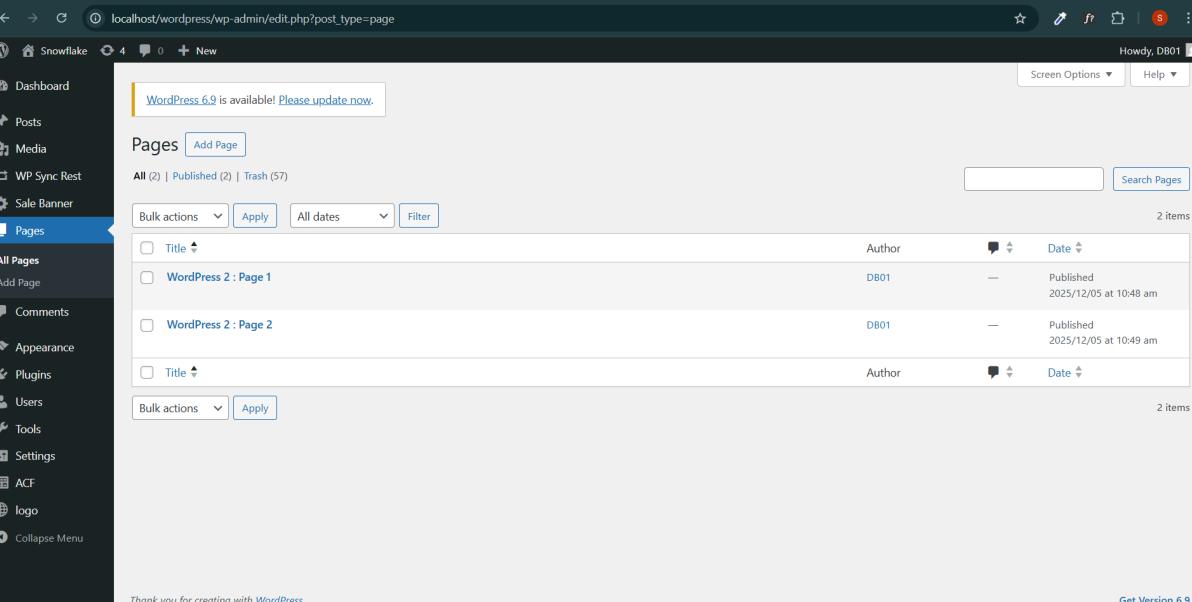

This screenshot shows the same 'WP Sync Data' settings page as the previous one, but with a prominent blue callout box in the center stating 'Syncing Completed'. The 'Available Sites' section remains the same, showing the site entry for 'http://localhost/wordpress'. The 'SYNC' button is still present. The overall layout and sidebar are identical to the first screenshot.

8. After synchronization the SUCCESS or FAILURE status will appear

The screenshot shows the 'WP Sync Data' settings page. On the left, there's a sidebar with various WordPress menu items like Dashboard, Posts, Media, and WP Sync Rest. The main area has tabs for 'Settings' and 'Sync'. Under 'Sync', there are dropdowns for 'Page', 'All Categories', and 'cat', and a 'Pagination Size' input field. A large 'APPLY' button is below these. Below the tabs, there's a section titled 'Available Sites' with a list containing 'http://localhost/wordpress' and its ID 'a320ee451e09f7f5ee9ac4f052773358'. To the right of the site list is a 'SUCCESS' status indicator with a green checkmark icon. At the bottom, there's a 'SYNC' button.

9. Go to other wordpress site, now both pages with 'cat' category will also be added in it.

The screenshot shows the 'Pages' list in the WordPress admin dashboard. The sidebar on the left includes 'WP Sync Rest' under the 'Pages' section. The main area shows a message 'WordPress 6.9 is available! Please update now.' and a table of pages. The table has columns for 'Title', 'Author', and 'Date'. It lists two pages: 'WordPress 2 : Page 1' and 'WordPress 2 : Page 2', both authored by 'DB01' and published on '2025/12/05 at 10:48 am' and '2025/12/05 at 10:49 am' respectively. There are 'Bulk actions' and 'Apply' buttons at the bottom of the table.
